

Region	Observed data Evt	SM Expected Evt (stat. \oplus syst.)
4-jets	45	48 ± 17
3-jets	38	37 ± 12
2-jets	18	16 ± 5

Table 1: Observed number of data events for the three selection analyses in 2.0 fb^{-1} , compared with the expected events from SM processes. The quoted systematic uncertainty on the background include 6% uncertainty on the luminosity.
